

Gulf of Mexico Offshore Access Policy

Any individual involuntarily removed from any offshore BP project or jobsite will be reported to the Director of Security. Their names will be placed on a Prohibited Access List and provided to BP's offshore logistics group. The List will include the person's name, the BP contact for reinstatement and the date that access rights were revoked. Any individuals whose names are on the List will be denied access to the requested transportation, until written clearance and authorization is provided by the BP offshore logistics group and an authorized BP representative.
