

BP Supplier Summit Winners

BP RECOGNIZED VALUES & BEHAVIORS

SAFETY - Safety is good business. Everything we do relies upon the safety of our workforce and the communities around us. We care about the safe management of the environment. We are committed to safely delivering energy to the world.

RESPECT - We respect the world in which we operate. It begins with compliance with laws and regulations. We hold ourselves to the highest ethical standards and behave in ways that earn the trust of others. We depend on the relationships we have and respect each other and those we work with. We value diversity of people and thought. We care about the consequences of our decisions, large and small, on those around us.

EXCELLENCE - We are in a hazardous business and are committed to excellence through the systematic and disciplined management of our operations. We follow and uphold the rules and standards we set for our company. We commit to quality outcomes, have a thirst to learn and to improve. If something is not right, we correct it.

COURAGE - What we do is rarely easy. Achieving the best outcomes often requires the courage to face difficulty, to speak up and stand by what we believe. We always strive to do the right thing. We explore new ways of thinking and are unafraid to ask for help. We are honest with ourselves and actively seek feedback from others. We aim for an enduring legacy, despite the short-term priorities of our world.

ONE TEAM - Whatever the strength of the individual, we will accomplish more together. We put the team ahead of our personal success and commit to building its capability. We trust each other to deliver on our respective obligations.

2018 AWARD WINNERS

SAFETY - **Swire Oilfield Services** / for developing a cutting box lid lifting device which will eliminate back injuries; also, have done videos on actual field SOCs and Hazard Hunts

RESPECT - **Schneider Electric** / for fostering continuous improvement by requesting a separate electrical lesson learned meeting after the Thunder Horse scheduled outage; they provided respectful feedback on how BP could improve work scope developments and planning particularly around the execution of electrical

EXCELLENCE - **Intertek** / for thorough review, processing and managing large programs such as CUPS (corrosion under pipe supports); also, engineering office filled gaps amongst BP team in office

COURAGE - **GW Integrated Solutions** / for rigorously building Ethics and Compliance into their program

ONE TEAM - **Honeywell** / for collaboration and commitment to our partnership; after Hurricane Harvey devastated our automation lab, Honeywell offered a temporary space and equipment at no cost that allowed the testing for projects to continue reducing the impact to operations; also, in critical situations, like the Thunder Horse and Atlantis power outage incidents and subsequent restarts, Honeywell quickly offered up assistance with the response and investigation and went offshore
